

Breastfeeding Matters!

Research has shown that you may benefit from additional PRENATAL support for breastfeeding due to:

- ☐ Body Mass Index of over 30
- ☐ Breast reduction/surgery
- ☐ First baby
- ☐ Gestational Diabetes
- ☐ Lack of social /emotional support
- ☐ Low thyroid hormone
- ☐ Polycystic Ovary Syndrome
- ☐ Pregnant with multiples
- ☐ Previous difficulty breastfeeding
- ☐ Previous preterm birth
- ☐ Scheduled or high risk for Cesarean Birth
- ☐ Under 25 years of age
- ☐ Use of assisted reproductive technologies
